Myrtle Hoover

Meet one of our new residents, Myrtle Hoover! Myrtle grew up in Kansas during the dust storms, where hiding under the covers and waking up to piles of dust in the house grew all too familiar. She moved to Oregon after graduating from high school, glad to be away from the storms. That same year, she went back for her family and was caught in a snow storm for two weeks. Kansas hasn't seen her since! She started working at the age of seven, doing all sorts of different jobs. If she wasn't working, she was playing volleyball and basketball. She did roofing, handy work, babysitting, and helped coach the middle school kids shortly after graduating.

One night before she planned on leaving town, she decided to go to a square dance at the YMCA where she met a handsome young man who drove her home that night. As she thanked him for the ride and opened the door to leave, he told her he'd see her tomorrow. She broke the news to him that she was leaving town—he was devastated. When she awoke the next day, she found her car unable to drive due to a bad tire. After talking to every car place about a replacement and having no luck, she accepted that she wasn't going anywhere. Not long after, the two were married. To this day she still questions if he had something to do with that fortunate fluke.

Although still wondering, she believes she was put on this earth for two reasons: one, to be a disciple of God and two, to care for others. If she could, she would be running up and down the court with a basketball, but now she enjoys reading medical books and her bible.

Janet Pinkham

Meet Janet Pinkham! Janet has lived in Medford, Oregon her whole life besides the three years she served in the military. She was the first in Medford to join the Navy W.A.V.E.S in 1943, where she served as the store keeper. Every day she walked home from work, she would pass the military office, until one day she felt led to go in and sign up—she says she has never regretted it.

Janet's favorite things to do as a child always involved the outdoors: climbing trees, hiking, playing with her toy guns and pocket knives, and playing softball. She met the man that would one day give her a diamond ring on the softball diamond. He was the umpire for the ladies' team, and they often had small tiffs over calls. But it all began at a Saturday night dance with her sisters and friends when a group of boys sat behind them. When the girls got up to leave, the boys stood to offer them rides home. As the other girls eagerly said yes, Janet said no, she would leave with her sisters. She noticed one boy stare in interest. The next day he showed up at her house, and not too long after, they were married and had two sons of their own.

Her father passed when she was very young. Her mother worked seven days a week to provide for her seven children while Janet and her siblings learned to depend and take care of each other. She says her mother was an amazing lady that taught her to love and put her family as her top priority.
